HIGH SCHOOL,

Elmbank Street.

(Founded in the 12th century.)

The school is one of the oldest institutions of the city, but the exact date of its origin is unknown; it is certain, however, that it was in existence before the University, for in records prior to the foundation of the latter, the Doctor of the Grammar School is honourably mentioned.

THE GLASGOW AND WEST OF SCOTLAND TECHNICAL COLLEGE.

The College was established in 1886 by an Order in Council amalgamating several old institutions, notably Anderson's College, founded in 1796, and the first technical college in the kingdom; the College of Science and Arts, the successor of the first Mechanics' Institute; the "Young" Chair of Technical Chemistry; Allan Glen's Institution; and the Atkinson Institution. The College, as now constituted, offers complete courses of instruction of University standard in pure and applied science, and is specially designed to give the most suitable education to students intending to enter an industrial profession or trade. The complete course of study extends over at least three years, but students are at liberty to enter for any less period. The instruction in both day and evening classes is made as practical as possible, and there are fully equipped laboratories in the departments of physics, chemistry, technical chemistry, dyeing, metallurgy, mechanics, mechanical engineering, electrical engineering, mining, textile manufacture, biology, bacteriology and navigation. The museums contain several important collections, and the library consists of about 10,000 volumes, including many valuable works. The reading room is provided with the current issues of the principal scientific and technical journals. The diploma of the College carries with it the title of "Associate of the Glasgow and West of Scotland Technical College," and associates are eligible for admission to the final examinations for the degree of B.Sc. in Engineering of Glasgow University after attendance upon prescribed classes in the University for at least one session. There are many valuable bursaries and scholarships in connection with the College.

The Leadenhall Press, Ltd., manufacturers of the well known STICKPHAST PASTE, are now manufacturing various Grades of

"FIXOL" PASTES

IN BULK FOR MANUFACTURERS.

The "FIXOL" Pastes are all scientifically prepared to exact formulae, and are suitable for use in all climates.

FREE SAMPLES.—A selection of Samples will be sent free on application; after which a 28-lb. keg of the Grade chosen will be forwarded, carriage paid, at the nominal charge of 3/6, the usual price for 28 lbs. being 5/-.

SOME OPINIONS.

Extract from the "LANCET."

"FIXOL. We have given this excellent Paste considerable practical trial with very satisfactory results. It consists of a modified Starch, manufactured in a special manner, which renders it glairy and, at the same time, tenacious, and is very clean to use. The Paste is quite permanent, and contains an agreeable antiseptic, and offers great advantages where large quantities are in constant use, as in newspaper offices and other places where labelling is required."

Messrs. CARTER'S SEED CO., write:

"We beg to state that 'FIXOL' gives us every satisfaction, and we are now using it in lieu of glue for making up our card-board boxes."

Messrs. CROSSE & BLACKWELL, Ltd., write:

"'FIXOL' is the best medium we know of, and we propose to continue its use."

Messrs. SALMON & GLUCKSTEIN, Ltd., write:

"We have used 'FIXOL' for some considerable time for labelling purposes, and it has given us great satisfaction."

KELLY'S
CUSTOMS TARIFFS
OF THE
WORLD.

THIS WORK comprises the various Customs Tariffs in force in all countries. Formerly they were issued as a section of Kelly's Directory of the Merchants, Manufacturers and Shippers of the World, but owing to the enormous proportions that Guide has attained, it was considered expedient to issue them in a separate volume.

The Tariffs are arranged to show the weights and measures prevailing in the respective countries, and against each article the amount chargeable as duty is given in the currency of that country.

By the use of the Index, Exporters are enabled to see at a glance what duty, if any, is levied on any article imported into any country.

KELLY'S DIRECTORY
OF
ENGINEERS,
Iron & Metal Trades,
and COLLIERY PROPRIETORS
OF
ENGLAND, SCOTLAND AND WALES,

With the Principal Towns in IRELAND, the CHANNEL ISLANDS, and ISLE OF MAN.

Price 30/-.

The Work is on the same plan as the previous Editions, and the information has been thoroughly revised and corrected up to the latest possible date. It contains :—

(1) Every ascertainable name in the Towns and Villages alphabetically arranged under each County ;

(2) The names under each particular Trade, in London and its Suburbs, alphabetically arranged ;

(3) The names for the rest of England, Scotland and Wales similarly arranged ;

(4) The names for Ireland arranged under Towns and Trades ; and (5) The names for the Channel Islands and Isle of Man also arranged under Towns.

The populations (according to the 1901 census), the Market Days, and the Weekly Half-Holidays, will be found under each town.

By these several Sections the Book is rendered as complete as possible for local as well as general use.

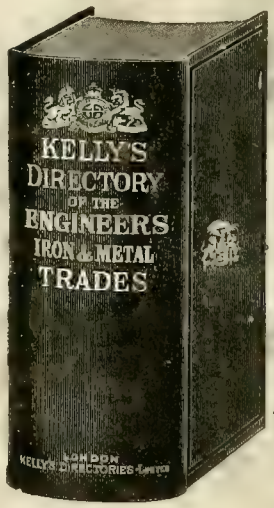
Trade Directories

OF ENGLAND, SCOTLAND AND WALES AND THE PRINCIPAL TOWNS OF IRELAND.

THESE books deal with the Industries indicated by their respective titles, together with all the trades in any way associated with them. It is impossible to describe in this short account the scope of the Directories, but lists of the trades included in the various volumes may be obtained from the Publishers.



They all contain (1) the towns and villages arranged alphabetically under Counties, the market day and early closing day of each town being shown; (2) an alphabetical arrangement under each particular trade in London; (3) a similar arrangement for England, Scotland and Wales, and (4) the names for Ireland, the Channel Islands, and the Isle of Man, arranged under Trades.

By means of these books anyone is enabled readily to put himself in communication with the members of any particular trade throughout the United Kingdom.
